

Hi!

I'm **Daniel González**, based in Berlin, Germany.

I'm a product designer with 18+ years of experience working for companies like *Personio*, *HERE Technologies*, *Nokia*, *Frog Design*, *Telefónica I+D*, *elBullifoundation* and others, across *HR tech*, *fintech*, *automotive*, *IoT* and *data visualization* products.

My broad experience gives me a holistic perspective on how products should look, feel, and work—and how design can connect customer needs, business goals, technology, and brand.

As a leader, I create the conditions for teams to do their best work. I set the bar through hands-on practice, establish clear principles and ways of working, and build systems that allow quality to scale across products and teams.

In recent roles, I've led complex product transformations, aligned product and brand, defined shared UX architectures and design systems, and introduced design-ops and AI-enabled workflows that improve collaboration and reduce repetitive work.

My leadership style combines vision, clarity, collaboration, and craft. I aim to build design cultures where systems thinking, curiosity, accountability, and high-quality execution are part of the everyday work.

I also mentor teams around accessibility and inclusive design, because technology should be accessible to everyone.

Since Feb  
2026

**Infoniqa — as Head of Product Design.**

Leading a team of eight designers in transforming 20+ legacy products into a unified, modern platform experience. Defined the shared UX architecture, design system, brand framework, and AI-enabled workflows that connect products across HR, finance, payroll, analytics, construction, and IT—preserving domain expertise while creating consistency, reducing migration friction, and scaling design quality across the organization.

2023 — 2025

**Personio — as Staff Product Designer**

Led the redesign of core product experiences, aligning product and brand into a modern, coherent interface. Built standards and internal tools that scaled design quality, automated asset creation, and reduced review overhead.

2022 — 2023

**Klar — as Lead product designer.**

Led a full product redesign to align the experience with a modern, cohesive brand. Built and orchestrated the design system as a shared source of truth, partnering with engineering to ensure design–development parity.

2014 — 2022

**HERE Technologies — Lead Product Designer**

Designed data-intensive mapping and navigation tools, turning complex location/logistics data into clear, interactive products; delivered UI, motion and prototypes, and set accessibility standards.

2010 — 2014

**Aer studio — Senior interaction & visual designer**

Design studio specialized in innovation for data-driven digital products. Worked end-to-end across interaction, visual and motion design for clients such as Nokia, Fjord, Frog, Telefónica I+D, elBullifoundation, Bestiario, and Desigual.

2008 — 2009

**Sixis motiongraphics — Motion designer**

Design studio specialized in CGI & Motiongraphics.

2006 — 2008

**Papagaio estudio — Co-founder.**

Early professional role producing a wide range of visual and interactive projects: websites, motion graphics, video pieces, book and editorial illustrations, architectural 3D renders, and 2D/3D animation for commercials.

## Academic Education

- 2005      **Bachelor's Degree in Graphic Design**  
Universidad Rafael Belloso Chacín, Venezuela.
- 2009      **Master of Interaction Design & New Media**  
Elisava design school, Spain.
- 2010      **Master in web design & development**  
Cipsa School, Barcelona.
- 2006      **3D design & digital production.**  
Alvaro Planchart animation school, Venezuela.

## Professional Development

- 2019      **Discard Studies: Toxicity, Knowability, Accountability.**  
Savvy Contemporary, Berlin.
- 2019      **Data journeys in Design, journalism & education.**  
Workshop. Encode conferences, London.
- 2019      **Designing with Data, Beyond BI-Tools & Analytics**  
Workshop, Berlin.
- 2011      **Programming courses in C++ & OpenGL at Cipsa.**  
Cipsa School, Barcelona.

## Talks &amp; Teaching

- 2014      **Talk about Data-driven graphics.**  
Potsdam University.
- 2019      **"Hello Plants!" a workshop on physical computing & creative coding with Arduino and Processing.**  
Mutuo, Barcelona.

## Languages

Spanish —native.  
English —fluent.  
German —basic.

## Frontend

**HTML5, CSS3 (Flex/Grid), JavaScript (ES6+), D3.js, Three.js, WebGL, GLSL/shaders, Node.js (basic).**

My technical skills are focused on frontend development to push the visual/brand bar in product — building interactive, data-rich and motion-heavy experiences.

## Design

**Figma, Sketch, InVision, Illustrator, & Photoshop.**

For product/UI work, design systems, and high-fidelity brand assets.

## Motion

**After Effects, Premiere, Final Cut Pro, Lottie, Rive.**

for interface motion, video edits, and lightweight interactive animations.

AI/  
Automation

**Claude, MidJourney, Cursor, ChatGTP.**

Use of AI tools to speed up on-brand image/content generation and to support design-ops workflows.
